Love Comes True

Newsboys

Ooh, 18 and I'm outta here
She had reached her independence day
Never saw her mother's private tears
Or the times her daddy prayed to God to see her through
Love comes true
Love comes true
Love comes true
Love comes true
21 and I'm so confused
Getting up her nerve to call collect
I do not need help from anyone
But there's a few little words I did neglect to say to you
Love comes true
(No turning back the clock)
Love comes true
(Just waiting for a knock)
Love comes true
(Lord, if she only knew)
Love comes true
Love comes with patience
Love lost is found
32, married, and kids for her own, she's come around
She needs them to help her through
Love comes true
(Love is sending out a light)
Love comes true
(Love is gonna make it right)
Love comes true
(Love is finally getting through)
Love comes true
Love comes true
(Love is sending a light)
Love comes true
(Love is making it right)
Love comes true
(Love is gonna get you through)
Love comes true
Love comes true
(Love is sending a light)

Love comes true
(Love is making it right)
Love comes true
(Love is gonna get you through)
Love comes true
Love comes true
(Love is sending a light)
Love comes true
(Love is making it right)
Love comes true
(Love is gonna get you through)
Love comes true
