What Beautiful Is

Aaron Lines

First time I saw you girl you lit up the room
How was I supposed to know
Beyond the way that your smile caught my eye
You had something deeper to showBut the power of this emotion has revealed
Love is more then what I see, it's what I feelFrom the ocean to the clearest starlit sky
I've seen so many amazing things, still I was so blind
With your touch you opened up a world that I would have missed
You showed me what beautiful isIt's in the way you can make me laugh
And in how you believe in me
How you follow your heart no matter what the path
And how you give so unselfishlyOh now I'm seeing colors where there once was only gray
Now I know the kind of love that takes my breath awayFrom the ocean to the clearest starlit sky
I've seen so many amazing things, still I was so blind
With your touch you opened up a world that I would have missed
You showed me what beautiful is, yeahWell, the most amazing thing by far
Is you don't even know how beautiful you areFrom the ocean to the clearest starlit sky
Well I've seen so many things, amazing things, still I was so blind
With your touch you opened up a world that I would have missed
You showed me what beautiful isDarlin' you are what beautiful is
What beautiful is
