One Night Stand

Keri Hilson

Men, go slow
You should stay another night with me, oh whoa
A one night stand is all I need, just you and me
You should stay another night with me, oh whoa
A one night stand is all I need
Tell me how you like it, baby
Do you want it fast or slow?
'Cause I get so excited, baby
When you're taking off my clothes
Time and time again I done try to be the girl in your life
Boy, I know you're feeling lonely
So if you want it, boy, just come over, boy
And I promise you won't ever wanna leave
You should stay another night with me, oh whoa
A one night stand is all I need, just you and me
You should stay another night with me, oh whoa
A one night stand is all I need
Tell me how it feels when your man don't please you right
And tell me how it feels after I take you on this ride, ooh
I got the remedy girl, I'll be your fantasy
Girl, I'ma kiss from your head to your feet, yeah
Satisfaction guaranteed, whoa
Girl, I didn't come to tease ya, I just wanna please ya
Hope you like it
I know you wanna be loved
Maybe we can make some
Boy, I think that you should stay
You should stay another night with me, oh whoa
A one night stand is all I need, just you and me
You should stay another night with me, oh whoa
A one night stand is all I need
Baby, he ain't treating you right
And I know he ain't hitting it right
That's why you need me in your life, baby
Come here, let me kiss on your neck
Down to your chest, to your navel
All over all the way so stay here another night
You should stay another night with me, oh whoa
A one night stand is all I need
