One Of These Days

Owen

One of these days I'll make some money
And buy myself those things that I want
Acrylic paints, acoustic guitar strings
A new bicycle seat
I might ride over to your house each nightOne of these days I'll get a real job
One that actually pays, like my dad had
And you know my father, the bartender
He used to wear a suit to work before he hit the drink
The old man, he used to do a lot of thingsOne of these days I'll give up
And give into the man
