

My Death

Mayhem

There's a sign carved deep
In the palm of your hand
There's a birthmark craving
On the left side of your heart Your life was forever structured
Composed and eternally given
[Incomprehensible]
[Incomprehensible][Incomprehensible]Into your glory of emptiness
I send my life force My death, my death Be death with me
Be death with me
Death with me
Death with me My death Odium humani generis
Odium humani generis
Odium humani generis
Odium humani generis
