Flame in the Night

Freedom Call

I call your name, wonder why
Should I die to be free?
Will I ever get a chance to try
Turning back the wheels of time
Back to the dawn of my days?Send me a sign and reopen the gate
Send me back home and release me from painAnd my star will shine like a flame in the night
My power and glory will rise forever
Oh, like a flame in the night
Remember the journey never endsFall from grace, time to die
Is this the end of my days?
Tell me fathers in the sky
Tell me why you damned my life
Why don't you end up my war?Send me a sign and reopen the gate
Send me back home and release me from painAnd my star will shine like a flame in the night
My power and glory will rise forever
Oh, like a flame in the night
Remember the journey never endsHope forevermore, crying nevermore
Lonely heart inside
I will set the score, end my inner war
Burning up my mindHope forevermore, sailing distant shores
Lonely heart inside
I will set the score, rising from below
Raging war in mindSend me a sign and reopen the gate
Send me back home and release me from painAnd my star will shine like a flame in the night
My power and glory will rise forever
Oh, like a flame in the night
Remember the journey never endsAnd my star will shine like a flame in the night
My power and glory will rise forever
Oh, like a flame in the night
Remember the journey never endsAnd my star will shine like a flame in the night
My power and glory will rise forever
