

Dub The Frequencies Of Love

Gogol Bordello

Give me a vision when I got none
And the thunderbolts in each hand of my own
For I'm comin' back to level
Everythin' they taught us wrong
Onto transmigration
With a crave for panacea
Our world is crawlin' on all fours
In a search of a new prayer
Gods are throwin' thunderbolts
So dub it like tovarisch would
Dub it like a best friend would
Dub it like a brother would
Onto transmigration
[Incomprehensible] how to keep goin'
Of walkin' trails of ultimate
From the streets to the sub-conscience
From sub-conscience to the God
So dub it like tovarisch would
Dub it like a best friend would
Dub it like a brother would
Onto transmigration
Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow
Master tell me how come everythin' they taught us
Turn out to be so goddamn wrong
In the meantime music from the tiny island
Takes over the world
So dub it like tovarisch could
Say it like a brother would
Brother hold me like a mother would
Onto transmigration
Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow
Give me a vision when I got none
And the thunderbolts in each hand of my own

For I'm comin' back to level
Everythin' they taught us wrong
Dub it like tovarisch would
And say it like a brother would
Dub it like tovarisch would
Onto transmigration
Frequencies of love
Gather 'round, oh come on
Frequencies of love
Overcome, overthrow
Onto transmigration
