

Maybe

Sick Puppies

Maybe I'm a dreamer
Maybe I'm misunderstood
Maybe you're not seeing
The side of me you should
Maybe I'm crazy
Maybe I'm the only one
Maybe I'm just out of touch
Maybe I've just had enough
And maybe it's time to change
And leave it all behind
I've never been one to walk alone
I've always been scared to try
So why does it feel so wrong
To reach for something more
To wanna live a better life
What am I waiting for?'Cause nothing stays the same
Maybe it's time to change
Maybe it's hopeless
Maybe I should just give up
And what if I can't trust myself?
What if I just need some help?
And maybe it's time to change
And leave it all behind
I've never been one to walk alone
I've always been scared to try
So why does it feel so wrong
To reach for something more
To wanna live a better life
What am I waiting for?'Cause nothing stays the same
Maybe it's time to change
And maybe it's time to change
And leave it all behind
I've never been one to walk alone
I've always been scared to try
And maybe it's time to change
And leave it all behind
I've never been one to walk alone
I've always been scared to try
So why does it feel so wrong
To reach for something more
To wanna live a better life
What am I waiting for?'Cause nothing stays the same
Maybe it's time to change
'Cause nothing stays the same
Maybe it's time to change
