

Time

Halloween

Feel it running off
So strong and clear
An age is over fast
And disappears
Help him if you can
His hour will come soon
Push away his fear
He'll see Elysium
It's time
It's timeGuard him a little while
And calm his shiver
Wash and dry his tears
And cold his fever
Take the bible's words
Speak it pure his soul
Lay love in his mind
His close to the final goal
It's time
It's timeIt's time to go
Time for the freedom
Time to face what we all believe in
Pray strong
Pray to the higher
Turn your back on the devil's fire
Time to go
Time for freedom
Time to face what we all believe in
Time is passing byWhen his mind is clear
He called your brother
Now his brain is dazed
It's resigning rather
Mother take his hand
Say a last good-bye
We're not gifted to
Turn water into wine
It's time
It's time
