

# God's Word Will Stand

## Inspirations

What has happened to a nation that used to fear the Lord?  
To a people whose foundation was built upon God's word?  
We've allowed the world's opinion to chart a different way  
But it's time the church of Jesus Christ should boldly stand & say

God's word will stand against the raging tide  
Of those who criticize, & work their evil plans.  
God's word will stand, against the gates of hell  
With power to prevail in the hearts of men.  
God's word will stand.

They can take it from the courthouse walls, remove it from the schools,  
Teach our children that we're animals, speak against the golden rule  
Try & hide our Christian heritage from the public eye.  
But they'll never overcome God's word, no matter how they try.

God's word will stand against the raging tide  
Of those who criticize, & work their evil plans.  
God's word will stand, against the gates of hell  
With power to prevail in the hearts of men.  
God's word will stand.

It is forever settled to ever more endure.  
It's the only way a sinner's heart could ever be made pure.

God's word will stand against the raging tide  
Of those who criticize, & work their evil plans.  
God's word will stand, against the gates of hell  
With power to prevail in the hearts of men.  
God's word will stand.  
God's word will stand.  
God's word will stand.
