

Not With Me

Bondan Prakoso

I'm waking up from my summer dreams again
try to thinking if you're alright
then i'm shattered by the shadows of your eyes
knowing you're still here by my side
Reff :
I can see you if you're not with me
i can say to my self if you're okay
i can feel you if you're not with me
i can reach you my self, you show me the way
Life was never be so easy as it seems
'till you come and bring your love inside
no matter space and distance make it look so far
still i know you're still here by my side
Back to Reff :
Yeah you're made me so alive,
you give the best for me
love and fantasy
yeah
and i never feel so lonely,
'cause you're always here with me yeah
always here with me
Back to Reff :
I'm waking up from my summer dreams again
try to thinking if you're alright
then i'm shattered by the shadows of your eyes
knowing you're still here by my side
