Seven Deadly Saints

Powerwolf

Seven

Seven deadly saints

Oh, seven

Seven deadly saints can fight for usWhen the devil comes for your soul

And the evil will take control

And when Lord Satan is on your mind

And the demons

Call from behindNo revelation

The darkest night

Incarnation

Crucified at midnightCongregation

To provocate

Immolation

It's not too late 'causeStay, I pray

Help me I'm a slave in Satan's order

Stay, I pray

Call the ancient prophecy

Come to meSeven

Seven deadly saints

Oh, seven

Seven deadly saints can fight for usWhen no prayer can ease your pain

And the sermon is all insane

And when your heaven and hope is gone

They will hunt you

For what you've done to usInside the darkness they will wait for you Seven demons incarnate it's trueMaster help me I'm a slave in Satan's order

Break free, call the age of prophecy

Come to meSeven

Seven deadly saints

Oh, seven

Seven deadly saints can fight for us
