

Antilyrical

Seaweed

bad news comes by the ton
easy answers are none
that i know
no easy answers and only scars to showtake me off to the grid
you make me feel like a kid
that i know
no easy answers and only scars to showanother new day's gone
and time goes on and on
the road ahead seems long
under darkened skies
where everybody dies
needle stis at the red
pounding feet full of lead
that i know
no easy answers and only scars to show
meeting my wants and demands
money falls through your hands
that i know
no easy answers and only scars to showand no one knows when it's ending
