

# As Real As You and Me

[Rihanna](#)

There could be a freak accident  
There could be a fatal diseaseI know you hate to think about it  
But it's as real as you and me  
It's as real as you and meWe could all fall down  
Before our Saviour could return  
I know you hate to think about it  
But it's as real as you and meIf I should go  
Hold my hand  
If I should leave  
Time cover me, pleaseThe earth could quake into ruins  
We could drift off in our sleepI know you hate to think about it  
But it's as real as you and me  
It's as real as you and meThe ocean could crush the shore  
And take us down forevermoreI know you hate to think about it  
But it's as real as you and meIf I should go  
Hold my hand  
If I should leave  
Time cover me, pleaseI know you hate to think about it  
But it's as real as you and me  
It's as real as you and me
