

# I Don't Want Control Of You

## Teenage Fanclub

I don't want control of you  
It doesn't matter to me  
The very heart and soul of you  
Are places I wanna see  
Everyday I look in a different face  
The feeling's getting stronger with every embrace  
I don't want a world of pain  
Staring at every tear  
Don't want this love to stay the same  
Growing with every year  
Everyday I look in a different face  
The feeling's getting stronger with every embrace  
Tired of situations  
That mean nothing to me  
You've been an inspirational figure for me  
Everyday I look in a different face  
The feeling's getting stronger with every embrace  
I don't want control of you  
It doesn't matter to me  
Don't want this love to stay the same  
Growing with every year  
Everyday I look in a different face  
The feeling's getting stronger with every embrace
