Lights

Editors

I still love the light on, baby
It keeps me awake but I don't mind
Everything I always wanted
Is right there but soon it won't be
Oh, if fortune favors the brave
I am as poor as they come
I've got a million things to say
I've got a million things to
I still love the light on, baby
It keeps me awake but I don't mind
Everything I always wanted
Is right there but soon it won't be
Oh, if fortune favors the brave
I am as poor as they come
I've got a million things to say
I've got a million things to
I still love the light on, baby
I still love the light on, baby
I still love the light on, baby
I still love the light on, baby
Oh, if fortune favors the brave
I am as poor as they come
I've got a million things to say
I've got a million things to
Ahh, a million things to say
A million things to say
A million things to say
