One In A Million

Level 42

Only one girl in a million
Is the one I'm searching for
And I know that she'll be different
From all I've known before
I have raised my expectations
I have followed every star
And I'll travel every highway
No matter how near, how far
Where is she, who will be
The fulfillment of my dreams?
Could it be fantasy
That may never come to me?
Spent my lifetime searching for the one
And a lifetime's work is never done
But in aiming for perfection
Other hearts have passed me by
It's a lonely road I travel
By building my hopes so high
I've been told, "You're so cold
Where's the passion, where's the fire?"
Lying in wait until fate
Lights the flames of my desire
Spent my lifetime searching for the one
And a lifetime's work is never done
Throw a lifeline if you're close to me
And I'll give you all you'll ever need
I spend my lifetime searching for the one
And a lifetime's work is never done
Throw a lifeline if you're close to me
And I'll give you all you'll ever need
