

Prelude 3.0

Slipknot

I don't know why
I never told you
And I don't know why
I never tried When we shed
These bitter skins again
All the reasons come to life
And now it's over Now it's over
Now it's over
Now it's over I don't know why
You never asked me
And I don't know why
You never cared When we hide
These little sins again
All the reasons
Have to die But now it's over
Now it's over
And now it's over
And now it's over And now it's over
And now it's over
And now it's over
And now it's over No, no, no, no
