

Blues From a Gun

The Jesus and Mary Chain

I want to watch the world cry
I couldn't open my eyes
I almost spoke but can't speak
Still being shelled all those lies
Blues from a gun I'm not the only one
I've been fooled they got me on the run
I've tried hard everything's been done
I've been fooled from blues from a gun
I start to watch the world crumble
I had to open my eyes
I start to run but I stumble
They stole the blue from the sky
Blues from a gun I'm not the only one
I've been fooled they got me on the run
I've tried hard everything's been done
I've been fooled from blues from a gun
Tears today in a way
Fears today won't go away
Blues from a gun I'm not the only one
I've been fooled they got me on the run
I've tried hard everything's been done
I've been fooled from blues from a gun
Whenever I turn around
I'm lost and I can't be found
Whenever I turn around
I'm lost and I can't be found, look at it fall
All these graces flying in the air now
Look at it fall, look at it fall
All these graces flying in the air now
Look at it fall, look at it fall, look at it fall
