World Today

Filter

I like the world today
I like the world today
I like the world today
I like the world today
I like the world today
I like it when it's green
I like the world today
I like the world today
I like it when it's green
I like the world today
I like the world today
Oh what a hell of a price
What a hell of a price?
But sometimes it's mean as hell

But sometime, but sometimes
But sometimes it's mean as can be
World
I like the world today
I like the world today
I like the world today
When it's green
I like the world today
I like the world today
Hell of a price to pay
It's a hell of a price to pay
And sometimes it's mean
And sometime it's mean
And sometime it's mean as can be
