# Running Wild in the Streets

## W.A.S.P.

I'm looking to beat hell, looks like I've got to run to be the leader
As my forces yell, you can hear 'em, can't you hear them
All the way- we'll go the distance now
All the way- stand behind me now
All the way- no turning back
All the way cause we are together
I'm standin' proud, we're screaming loud, I'll lead the crowd
Running wild in the streets

A heavy dose of mean, yeah, I'm a lethal combination
Hear my forces scream, you can see them, can't yo see them
All the way- we'll go the distance now
All the way- stand behind me now
All the way- no turning back
All the way we are together
I'm standin' proud, we're screaming loud, I'll lead the crowd
Running wild in the streets
