

# Distortions

## Clinic

I'd like to know completely  
What others so discreetly  
Talk about when they leave me  
Not that I notice when they're gone It's eerie and so scary  
I don't know who to marry  
Your sister came to bait me  
But I love it when you blink your eyes I've showed me once to often  
You'd never know how often  
I've pictured you in coffins  
My baby in a coffin But I love it when you blink your eyes  
Oh I, I want to know my body  
I want this out not in me  
I want no other leakage
