

On a Day

Jesse Harris

On a day unlike any other day
When you're midway through the sky
And you know more than you've ever known
All you wanted was a lie Now you sit quietly
Staring down at the sea
You are free to be anybody
Anybody you wanna be On a night unlike any other night
It is alright to want more
When you see more than you've ever seen
Then you walk right through the door Now you sit quietly
Staring down at the sea
You are free to be anybody
Anybody you wanna be
