

Operation New Years

Useless ID

I saw you on December 17th
This operation will take us two weeks
"There's one detail you don't know about me"
She said "he's coming over new years eve" And I don't understand you
Why you prefer to spend
This day with that guy
A search for mutual love
But that doesn't exist I'd promise you this whole world if I could
Let's talk about getting carried away over girls
And it seems this day will turn out like last years
When I'm drowning in the city drinking beer And I don't understand you
Why you prefer to spend
This day with that guy
A search for mutual love
But that doesn't exist between you
