

Wrecking Itself Taking You With Me

Poison the Well

You're going too fast
In the wrong direction
Laughing with eyes ablaze you say aren't we...But I think I'm gonna die, though
I think we are going to dieYou don't know what you're talking about my friend
Life ain't that hardAt some point these days I have lost my way
(Can't find the way back, I've lost my...)You're going too fast and in the wrong direction
Laughing with eyes ablaze you say aren't we...Now I'm in this hole
Now I'm in this hole
But I'm sure I'm gonna die, thoughYou don't know what you're talking about my friend
Life ain't that hardAt some point these days I have lost my way
(I can't find the way back)I've lost my way againYou say.....yourself
Anymore, anymore
That we become the ones we hate
Not anymoreAt some point these days I have lost my way
(I can't find the way back)I've lost my way
Not anymore, anymore
