

Light From Above

Obscurant

When the days grow darker
And the foes are full of fear
 The light will show
 And the enemy will fall
 This is our downfall
 This is our crusade
 The days of struggle
 And agony must end
 This warfare we create
 We shall destroy
 And the light will show
 Light from above
 Please show yourself
 And save us all
 Bright you must blaze
 Your time has come
 To reign, to shine
Now that things are clear again
 The battle must go on
 Sacrifice our primal thought
 So the battle must end
I've been waiting way too long
 For this day has now shown
 We must fight
 It's the only way
 This warfare we create
 We shall destroy
 And the light will show
 Light from above
 Please show yourself
 And save us all
 Bright you must blaze
 Your time has come
 To reign, to shine
 Light from above
 Please show yourself
 And save us all
 Fight for your life
 Your time has come

To reign, to shine
Light from above
Please show yourself
And save us all
Bright you must blaze
Your time has come
To reign, to shine
Light from above
Please show yourself
And save us all
Fight for your life
Your time has come
To reign, to shine
