## Fu Manchu

Advisory - the following lyrics contain explicit language:

The road demon sees  
Spinning last four speeds  
Says let's roll  
Inner state, time to go King of the mountain screams  
Pedal down, seven three  
Driver rolled his eyes  
Search light, they shine Land controller  
All seer, all knower  
Dual freak lies  
Headfirst downside It's overblown  
By now, they know  
Five miles to go  
In twenty years, they'll show Engines die  
Slow paced, low ground  
Crowd gathers near  
What they saw? What they hear? Had a job to do  
Right side, straight through  
Light starts to rise  
Some left, hell of a ride
