Primal

Slowdive

Today, I lost a colors fray
Watch the games you play
And when it all force down you
Don't forget the days
When the sunshine fades away
Remember what they sayRemember what they say
The right time she calls to tell
Every time she says, she's falling
And every time she call us friends
(Yea yea yea yea yea yea yea yea yea)Because to the right time she calls to tell, it would
Every time she says, she's falling
Every time she call us friends
Can't believe, says, she's
Can't believe, disgust, disgust
Can't believe, it scares me, can't believe, can't believe
