Fallen Wishes

Cyclefly

Take me away from here, this planet is all too weird.
I've got to get out of here, release this fear,
Forever in a day.
Listen to Dr. Jones, they're coming to break your bones.
He's coming to take you home just to somewhere,
Past the nowhere zone.
No strain, lose reigns, feeds like fire on a soul train.
Fallen wishes, fallen wishes.
Take me away from here, my dear, it's been dead for years.
I've got to get out of here, accommodate forever anyway.
Listen to Mrs. Jones, she's coming to take you home,
She's coming to make your bones,
Just somewhere past the no where zone.
No strain, loose reigns, feeds like fire on a slow train.
Fallen wishes, fallen wishes, fallen wishes, fallen wishes.
Keep turning, full circles.
Lives painted, in purple.
Keep learning, full circle.
Times changing, full circle.
Keep turning, full circle.
Lives changing, full circle.
Fallen wishes, fallen wishes, fallen wishes,
Fallen wishes, fallen wishes, fallen wishes.
