Ok Corral

June

Change your mind so I don't have to
Is your target in position? Am I in position?
'Cause I and I won't surrender
Until I'm surrounded, am I surrounded?One foot in the door
One foot in your grave
You're the one who started this
You're the one they thought
They couldn't saveSo tell me one thing can you
Live up to what you had in mind?
I choose to follow the tracks
To study the facts
The acts that you've left behindHesitate to pull your trigger
Head to fill your crosshairs
Your head to fill my crosshairs
And I'll take it all the way
Take it all the way
This is what I'll sayYou're down that's what
You want head towards
A friend to see if I'm lying
And this isn't what you're thinkingWhen you turn your back to me
This is what you deserve
And on my count
One, two, weaponHesitate to pull your trigger
Head to fill your crosshairs
Your head to fill my crosshairs
And I'll take it all the way
Take it all the way
This is what I'll sayAnd change your mind so I don't have to
Is your target in position? Am I in position?
'Cause I and I won't surrender
Until I'm surrounded, am I surrounded?You hesitate to pull your trigger
Head to fill your crosshairs
Your head to fill my crosshairs
And I'll take it all the way
Take it all away, take it all away
And take it all the way
