The Cause

V.Card

Is it for the money? No, it isn't for the fun
It's a plan, a scam, a diagram
It's for the benefit of everyone
You gotta have a little respect
Subterranean ideals, traditional neglect
Reflect on how it makes you feelThe cause
We're just doing it for the causeNo, it isn't for the fortune, it isn't for the fame
It's a scheme, a dream, a barterine
We want everyone to think the same
Because you know what you know is right
And you feel what you can't ignore
And you try so hard to point the blame
A shame, what are we doin' this for?The cause
We're just doing it for the cause
The cause
We're just doing it for the causeOpen your eyes, don't trust these lies
What are we doin' this for?The cause
We're just doing it for the cause
The cause
We're just doing it for the cause
