

# Lights Down Low

[Kelley James](#)

I was feeling when Im older  
He could love me just the same  
Papa say it again  
But now I feel cause hes gone now  
Always thought that love could stay  
Now Im waiting again  
And we may never know  
About the things we cant control Turn your lights down low  
For the ones you know  
Turn your lights down low  
For the ones you know  
For the ones you know  
Gon be better in your soul, we know And I know if he was here now  
He would never wanna see me cry  
But I just cant hold back these tears now  
He is gone and Im alone tonight  
And we may never know  
About the things we cant control And what could I find  
To get me over my broken heart  
I never said goodbye And now I feel it cause Im older  
And now I feel it cause hes gone
