# Could I've Been

## Course Of Nature

Could I've been
Something more than what I've become
Really wonderful than some
Then today, well I heard a sad sad song I sang
And it was wonderful with pain
And I stopped believing and I started thinking
It could be my mind that's got me all choked up inside
With thoughts of all those fears I hide
And I stop thinking, now I start believing you
We could share our time that means nothing if you aren't mine
And if I knew you cared about me
'Cause people love to be loved too
I step aside and watch my life pass me by
You were supposed to be my wife
And I stopped believing and I started thinking
And now I find that this thorn stuck in my side
Is all that's left of foolish pride
And I stop thinking, now I start believing you
We could share our time that means nothing if you aren't mine
And if I knew you cared about me
'Cause people love to be loved too
We could share our time that means nothing if you aren't mine
And if I knew you cared about me
'Cause people love to be loved too
