Time

Creed

I can't explain, can't quite put my finger on it
The difference that makes us so different
We've said everything, our words only betrayed us
Nothing is left, nothing was left unsaid
This time I have nothing left to lose
I'm stuck, the second hand won't move
It's about time that I speak my mind
It's about time, about time I find
Pieces of me I have lost
Without any choice I move on
Hey time, you're no friend of mine
Hey time, you're no friend of mine
You cover yourself, you cover your skin
You cover yourself like you cover your sin
Please untie my hands, I'm a sinner, I'm a man
I ask for one minute to make you understand
This time I have nothing left to lose
I'm stuck, the second hand won't move
It's about time that I speak my mind
It's about time, about time I find
Pieces of me I have lost
Without any choice I move on
Hey time, you're no friend of mine
Hey time, you're no friend of mine
Will you be there to catch me when I stumble
When I fall, when I fall?
It's so very clear you left me when I had no one at all
No one at all
Who will be there to catch me, to catch me when I stumble
When I fall, when I fall?
It's so very clear you left me, you left me with no one at all
No one at all
This time I have nothing left to lose
I'm stuck, the second hand won't move
It's about time that I speak my mind
It's about time, about time I find
Pieces of me I have lost
Without any choice I move on
Hey time, you're no friend of mine

Hey time, you're no friend of mine
No friend of mine
Time, you're no friend of mine
You're no friend of mine
Hey time, you're no friend of mine
Hey time, you're no friend of mine
The pieces of me I have lost
Without any choice I move on
Time, time, you're no friend of mine
