

New Orleans

Grace

Kinda lonely in New Orleans
Play the same old records
Makes me think of when we first met
So I wait till' the phone rings
Said you call me by the morning
Why you hiding darling
What you been up to, I'm bored. I stay up all night but I need love to keep me kind
I can't do this anymore, who's gonna catch me when I fall
Why does the love that we born to die
I need us keep me high, I can't do this anymore will you Hold me when I'm gone
When your gone (2x) I light another newport cigarette
Take another sip now you want my lips
Find another way we gotta switch
I might even leave just to get you pissed
Where is my baby
I've been waitin' for you I stay up all night but I need love to keep me kind
I can't do this anymore, who's gonna catch me when I fall
Why does the love that we born to die
I need us keep me high, I can't do this anymore will you Hold me when I'm gone
When your gone Tired of playin' games
All I'm tryna' say is all you boys the same
The way I feel has change
I don't know if I could be yours
I don't play games all you boys the same
Every one complains
Not anymore, theres got to be more I stay up all night but I need love to keep me kind
I can't do this anymore, who's gonna catch me when I fall
Why does the love that we born to die
I need us keep me high, I can't do this anymore will you Hold me when I'm gone
When your gone
