

# Take It All Away

## Gravity Kills

Give in  
What you think I'm feeling Open your eye's up to  
You're pulling me down in  
Look through  
Where you've seen so many Into your water blue  
Drowning  
I feel my heart stop beating  
Burning My cancer won't stop eating  
My cross I made for you You wanted too much from all of me  
I wanted too much from all of you  
I wanted too much from everything I need Won't you take it all away  
I said, won't you take it all away I don't think you'll make it  
Before the door is closing  
Don't think that you believe in  
Everything you see I don't think you'll make it  
I wanted all too much  
You hear my world exploding From everything  
Won't you take it all away  
Open your eye's up to  
I said, won't you take it all away Give in  
What you think I'm feeling I fall down below you  
Floating  
Right above you I need way too much From everything  
Take it all away  
Take it all away Won't you take it all away  
I said, won't you take it all away
