Walking on the water
Feeling the air
I can breathe with silence When the sky and the
sea are just one
When the light and the
blue are all around Be there
At the waterfall again
The rainbow
Is just in your head
Walking on the water
Feeling the air
I can breathe with silence Lying in the river
Hearing nothing
I can live forever
And anywhere
All is full of silence
(I'm calm now) x2
(Be there
At the waterfall again
The rainbow
Is just in your head) x3 Lying in the river
Hearing nothing
I can live forever...
