

Shine On

[Ryan Cabrera](#)

Given every moment I had
Still I can never seem to keep up with you
You're done with one mile and onto another one thousand
Still I can never seem to keep up with you I know you'll be better off without me when I'm gone
You know you're, you're beautiful, you're beautiful Shine on, you were made to
Shine on, and you know I love you
And even if we can or can't be friends
I'll be with you until the very end
So shine on, you were made to It's keeping me awake every night
But I can never seem to give up on you
I send up a prayer that I'm onto another one thousand
But I can never seem to give up on you I know you'll be better off without me when I'm gone
You know you're, you're beautiful, you're beautiful Shine on, you were made to
Shine on, and you know I love you
And even if we can or can't be friends
I'll be with you until the very end
So shine on, yeah Nobody's wrong, nobody's right
Keep moving on
Shine on, yeah
You were made to shine on Shine on, you were made to
Shine on, and you know I love you
And even if we can or can't be friends
You're gonna be brighter than you've ever been
So shine on You're gonna be just fine
Ooh, you're gonna be alright love
You're gonna be just fine
Ooh you're gonna be alright love
