Heaven or Nothing

Barren Cross

I've often heard about a place so far away
No man has ever lived to tell about it
But as I look upon your face
I see the beauty from above I just don't doubt itIf being with you is like the heaven I know
Then there's no other place I would rather goGive me heaven, heaven or nothing
There's no other feeling like it in this world
Heaven or nothing
Oh give me heaven or nothingAll the earthly love that Ive known has left me in the cold
We will walk together on streets made of gold
Heaven or nothingYou are the woman, too good to be true
Like a dream or a fairy tale, just me loving you
We will live forever
In a castle in the sky, in the land of neverIf being with you is like the heaven I know
Then there's no other place that I would rather goGive me heaven, heaven or nothing
There's no other feeling like it in this world
Heaven or nothing, nothing
Give me heaven or nothing, nothingAll the earthly love that Ive known has left me in the cold
We will walk together on streets made of gold
Give me heaven, give me heaven or nothingHow could it be that love has conquered all
When I hold you in my arms I hear the angels call
And now I see no other place will do
'Cause Im in heaven, heaven when Im standing next to youHeaven or nothing
There's no other feeling like it in this world, oh
Give me heaven or nothing
Give me heaven, give me heaven
Like a castle in the sky
Heaven or nothing, nothing
