Watch Me Fall

Uncle Tupelo

Advisory - the following lyrics contain explicit language:

Some folks find
That their role in life
Is to fail
At everything they tryWhile other folks see
But not like me
There's one thing
That they're damn good atTo gather around you all
Come around and see
Those who stand tall
Why don't you please watch me fall?The hole is wide
And it's there to divide
It's no one's fault
But it's put there by designAnd there's a bridge yet to build
As many men have willed
It stands the weight
Of all those who wish to passGather around you all
Come around and see
Those who stand tall
Why don't you please watch me fall?
