

# Islands

## Intergalactic Lovers

Advisory - the following lyrics contain explicit language:

Take a minute to face yourself,  
Deep breath that always helps.  
We've all been down here before,  
Gotta rock through hell to get up above. And you'll never be king if you have no crown  
And you'll never get high if you're afraid to fall, to fall. Well I burn my bridges with broken match sticks  
So convinced that I didn't deserve what was on the other side,  
Oh tricks played by my own mind.  
And I'll never be queen if I've no crown  
And I'll never get high if I'm afraid to fall, oh to fall. (Never gonna get to 4x) We are Islands, (We are, we are,  
we are) drifters lost at sea,  
Waiting for our ships to come back in, yeah.  
We are praying for (We are, we are, we are) the love that has been sinking,  
We are waiting for the love to come in ships to come all in. I took a laugh to try and right my wrongs,  
But still the sky is holding on.  
Oh, we've all been down here before,  
It's an endless loop, it goes round and round. And we'll never be kings if we have no crown  
And we'll never get high if we're afraid to fall, oh to fall. (Never gonna get to 4x) We are Islands, (We are, we  
are, we are) drifters lost at sea,  
Waiting for our ships to come back in, yeah.  
We are, we are Islands, (We are, we are, we are) drifters lost at sea,  
Waiting for our ships to come back in, yeah.  
We are praying for (We are, we are, we are) the love that has been sinking,  
We are waiting for the love to come in ships to come all in.
