

Other Side

C Duncan

Calling out to me this time
Coming up to see things too
I can See a change in you
Coming out to see it throughSee the other side
The city is cold and full
Find another line
Steady as the old current
See the other side
The city isn't quiet anymore
Find another time
Already is a force with powerFalling out of time again
Falling on the calling by
I can feel a move in you
Calling out a feeling tooI feel like I know you
Let the tunes(?) come and go
I feel like I know you
Saturday's coming now
