

Why Me, Why Now (Cicada Mix)

Blu Mar Ten

There's someone out there selling one way tickets to the edge of the world...

Yeah, I think I'll go around and buy me some.

'Cause I can't even find my peace while listening to the radio,

No....the songs, some sing about us. Why me, why now?

Thought I had it figured out but my heart won't shut down.

Why me why now?

I'll be caught red-handed when love comes around. I wish I never met you I was doing fine all on my own...till
you came passing by.

I wish I stayed not never knowing how emotions really feel...this is real.

The rules just don't apply. Why me, why now?

Thought I had it figured out but my heart won't shut down.

Why me, why now?

I'll be caught red-handed when love comes around.
