

# A Loophole in Limbo

## Fair to Midland

into the middle we goi smell a rat and just in case  
i set up traps and you're the bait  
surprise  
if curiosity kills cats  
we better teach the cat to fight backi'm waiting for you  
i don't know why  
when you always take your time  
into the middle we go  
let's see you try to kill meour eyes fell to the floor  
your eyes and minethe middleman straddles the fence  
he never loses, never wins with confidence  
and more power to him  
he doesn't need a telescope  
to figure out he's jumping rope  
hand over fisti'm waiting for you  
i don't know why  
when you always take your timeinto the middle we go  
let's see you try to kill meour eyes fell to the floor  
your eyes and mine  
that's finei'm waiting for you  
i don't know why  
when you always take your time  
into the middle we go  
let's see you tryi'm waiting for you  
i don't know why  
when you always take your time  
into the middle we go  
let's see you try to kill me
