

# In Your Cage

## Cinema Bizarre

In your cage  
You're the one  
To rule the game Here you feel safe  
But no one's gonna  
Call your name, you're a slave Your mind directed  
By the tears stream  
No time no waste There's more then what  
Your eyes can see  
You've got to wake up  
And make a change In your cage, you're a slave  
You've gotta speak your mind  
In your cage, you're a slave  
You got to leave the slave behind  
Behind, behind In your cage  
No one's gonna question your place  
If you won't change  
You have to play on higher steads This heart is yours  
No time to feed and  
Fall for security Open your door  
You just need to turn the key  
'Cause no one's gonna  
Live your life for you
