

Take Me Back

[Ed Kowalczyk](#)

I had a dream
We were in a garden
People talkin' but not saying anythin'
You had that look in your eyes
At once biblical, yet mundane
Ten thousand years like a second baby
Quantum leaps like we're walkin' down the street
I'd do it over but there's no point in chasing ghosts like meChorus:
Take me back to the start
Take me back to the why we had to leave
Take me back to the day that never dies in me
Then tell me where all the light has gone
Tell me where all the light has gone
Tell me where all the light has goneI had a dream of a starless night
A mediation, a glass of ennui
I turned around and saw you
And something ancient stirred in meChorusIt's all in you
It's all in me
But it's buried deep
Now we have to dig
It's still in you
It's still in me
But it's buried deep
Now we've got to digAnd here we sit in this silent temple
All wrapped around us
A womb of pregnant bliss
Just waiting for us to sing
The sacred chant and share the kissChorus
