

Whatever You Like (feat. Obrian)

[Doug Crawford](#)

If you want we can watch a movie yeh
Just stay home drink some wine get horny
Baby then make our own movie yeh
We do whatever you want baby if you wantIf you want we can watch a movie yeh
Just stay home drink some wine get horny
Baby then make our own movie yeh
We do whatever you want baby if you wantFunny thing it always starts with the movie
A glass of wine, no bathing in the jacuzzi
All ways u try to soothe me the little things really move me
U ain't one of them girls that's just trying to confuse me
Never asked u 2 go or asked u to stay
Yet your here every night feels like its meant to happen that way
Come relax in bubbles I lit candles on the bathtub
After ill show u why im famous for my back rubs
Perfect Combo of sexy smart & attractive
I was lost in ur eyes thank god ur proactive
Never leaving bed just cuddle naked
Love that ur a freak & like 2 video to tape itChoursIf you want we can watch a movie yeh
Just stay home drink some wine get horny
Baby then make our own movie yeh
We do whatever you want baby if you wantIf you want we can watch a movie yeh
Just stay home drink some wine get horny
Baby then make our own movie yeh
We do whatever you want baby if you wantI was thinking j lohr Cabernet maybe
Seeing yous the best part of my day baby
I know u feel same always texting on ur lunch break
When it's real u just know all it took was a date
And yes it helps that the sex is great
I remember how hard we laughed right when the bed breaks
I remember hit heavy turned to laughs right when the bed breaks
So lost in moment we threw mattress on the floor
I've made loved but never felt the passion before
