

Without Understanding

Ringo Starr

You said you were my friend
You don't even know my name
Is this the beginning of the end?
Singing your songs with the same old pain
Without understanding where can we go?
And if the world stops turning how will we know?
Understanding
Imagination
Without understanding
No good vibrations
The book is open to me
I can see in your empty pages
You got eyes that won't see
Traveling blind in your own mazes
Without understanding where can we go?
And if the world stops turning, how will we know?
Understanding
Imagination

Without understanding
No good vibrations
When you hear the Angel sounds
Turn around
Two voices becoming just like one
Can it be done?
Without understanding where can we go?
And if the world stops turning how will we know?
Understanding
Imagination
Without understanding
No good vibrations
Understanding
Imagination
Without understanding
No good vibrations
No good vibrations
No good vibrations
No good vibrations
