This is the Future

Asael

Wake up on your own
And look around you cuz you?re not alone
Release your high hopes and they?ll survive
Cuz this is the future and you are alive
Dive in and swim away

From your loneliness and miserable days
And when you wake up on your own
Look around you cuz you?re not alone
Let your hopes go and they?ll survive
Cuz this is the future and you are alive
?You?re headed home
