

# Darling I Do

Landon Pigg

Golden leaves looked brown to me  
The world had less color without you  
Shapes in the sky looked plain to my eyes  
The world had less color without you I know plenty of people with eyes closed  
They don't see you like I do  
Darling, I do Notes on the keys meant nothing to me  
The world didn't sing without you  
Birds in the trees fell silent for me  
The world didn't sing without you, without you I know plenty of people with eyes closed  
They don't see you like I do  
Darling, I do  
Darling, I do see you I know plenty of people with eyes closed  
They don't see you like  
I know plenty of people with eyes closed  
They don't see you like I know plenty of people with eyes closed  
They don't see you like I do  
Darling, I do Darling, I do  
Darling, I do, I do  
Darling, I do  
Darling, I do see you
